## SUMMARY

Results-driven Software Engineer with 7+ years of experience designing, developing, and deploying enterprise applications using .NET, C#, Angular, and Azure. Proven success in data migration, API development, and cloud transformation projects. Experienced in full-stack development and Agile environments, with strong expertise in modernizing legacy systems and delivering scalable solutions.

---

## EXPERIENCE

### Software Engineer

Appiatech Co.

September 2020 - February 2025

- Developed and maintained RESTful API services to support the migration of legacy CMS (desktop) systems to a modern AMS web platform.
- Collaborated with cross-functional teams to ensure accurate and seamless data transformation and integration.
- Implemented CI/CD pipelines and contributed to Azure cloud deployment strategies.
- Design and Develop Databases, including the writing of SQL statements and stored procedures.
- Worked in Agile SCRUM teams, participating in sprint planning, daily standups, and code reviews.

### Software Engineer

Jaffa.Net Co.

March 2018 - August 2020

- Responsible for developing end-to-end Applications.
- Develop Web and Desktop Applications using different technologies like Python, HTML, JavaScript, and .NET.
- Work on different Database Engines (SQL Server, PostgreSQL, MongoDB).
- Worked on different solutions for Jaffa.NET customers using the Odoo ERP Web Application

### Student-Part Time Job

Jaffa.Net Co

September 2016 - July 2017

- I worked as part of the Jaffa.NET R&D team as a full-stack developer.
- Responsible for creating a Web Application using C#/NET MVC.
- Work on a Machine Learning Algorithm, "Self-Learning Career Decision Support System".

---

## EDUCATION

### Bachelor Computer Science

Birzeit University • 2017

---

## SKILLS

C#, .NET Framework 4.8, ASP.NET, REST APIs, SQL Server, NoSQL, Azure, Git, Agile, MVC, Angular, Node.js, HTML5, CSS3, CI/CD processes, Cloud Environments (Azure)
